

MODULE SPECIFICATION FORM

Module Title: Developmental Psychology	Level: 5	Credit Value: 20
---	----------	------------------

Module code: PSY501	Cost Centre: GAPS	JACS3 code: C800
---------------------	-------------------	------------------

Trimester(s) in which to be offered: 2	With effect from: Sept 2018
--	-----------------------------

Office use only: To be completed by AQSU:	Date approved: February 2014
	Date revised: September 2018 – change of delivery to semester 2
	Version no: 2

Existing/New: Existing	Title of module being replaced (if any):
------------------------	--

Originating Academic Department: Psychology	Module Leader: Victoria Woodward
---	----------------------------------

Module duration (total hours): 200	Status: core/option/elective (identify programme where appropriate):	BSc (Hons) Psychology - Core BA (Hons) Education (Counselling and Psychology) - Option
Scheduled learning & teaching hours: 48		
Independent study hours: 152		

Programme(s) in which to be offered: BSc (Hons) Psychology BA (Hons) Education (Counselling and Psychology)	Pre-requisites per programme (between levels): None
---	--

<p>Module Aims:</p> <ul style="list-style-type: none"> To develop a student's critical understanding of the psychological concepts, theories and methods that are relevant to the study of lifelong human development, from a biological, cognitive and sociological perspective. To increase the students' understanding and critical thinking around changes associated with this development.

Intended Learning Outcomes:

At the end of this module, students will be able to:

1. Critically demonstrate an in-depth knowledge of the main theories, models and research areas of human life-span development from biological, cognitive and sociological perspectives (KS1)
2. Critically engage in independent enquiry of specific aspects of human development (KS6, KS7)
3. Apply independent enquiry within the context of existing contemporary research (KS9)

Key skills for employability

1. *Written, oral and media communication skills*
2. *Leadership, team working and networking skills*
3. *Opportunity, creativity and problem solving skills*
4. *Information technology skills and digital literacy*
5. *Information management skills*
6. *Research skills*
7. *Intercultural and sustainability skills*
8. *Career management skills*
9. *Learning to learn (managing personal and professional development, self management)*
10. *Numeracy*

Assessment:

1. A 2000 word essay e.g. the impact on development of the social context
2. A practical report, for example collecting data on Piaget's cognitive development theory.

Assessment number	Learning Outcomes to be met	Type of assessment	Weighting	Duration (if exam)	Word count (or equivalent if appropriate)
1	1,2,	Essay	50%		2000
2	3	Report	50%		2000

Learning and Teaching Strategies:

This module will be delivered using a series of 12 lectures (each 2 hrs) and 12 practical classes (each 2 hrs) where formative learning will be directed in a group for at least 9 of these practical classes. The remaining 3 practical classes will include subject delivery in three specialised areas from guest speakers.

Syllabus outline:

- What is Developmental Psychology?
- Theories and debates in developmental psychology e.g. nature-nurture;
- Lifespan development from biological, cognitive and social theoretical perspectives: 0-2 years, 3-6 years, 7-11 years, adolescence, early adulthood, middle adulthood, ageing;
- Learning needs and disabilities;
- Death and dying.
